PROFESSIONAL SUMMARY

What started as curiosity in Class 7th has grown into 7+ years of dedicated self-teaching across full-stack development and AI engineering. As a self-taught developer and Founder of AngelMindAI, I am currently building OshoGPT — a production-grade conversational AI powered by advanced LLMs. I combine strong technical skills with an entrepreneurial mindset, having delivered real-world web applications for clients across industries as a freelance developer.

EXPERIENCE

Founder & Lead Developer

2023 - Present

AngelMindAI

- Building OshoGPT — a conversational AI that embodies Osho's philosophy, meditative wisdom and unique voice using advanced LLM technology.
- Architecting the complete AI product stack including LLM integration, voice synthesis, web platform and cloud deployment.
- Managing all aspects of product development, branding, infrastructure and go-to-market strategy as a solo founder.

Freelance Web Developer

2022 - Present (2 Years)

Self-Employed

- Delivered multiple production-ready web applications for clients across various industries.
- Managed full project lifecycle: requirement gathering, UI/UX design, development, testing and deployment.
